Objective of the Committee	:	The Rotary Foundation Board of Trustees recognizes that the funds received from Rotarians around the world are voluntary contributions reflecting hard work and dedicated support. As stewards of these funds, the Trustees stress the importance of stewardship, or proper fiscal management, in any activities associated with Foundation programs. An essential component of stewardship is the preparation and submission of timely and accurate grant reports. The committee should oversee that club and district grant sponsors submit progress reports to the Foundation every 12 months for the life of the grant and final reports within two months of the project's completion. Although informal updates on the progress of a grant are appreciated, yearly progress and final reports must be submitted using the official Foundation report form appropriate for the grant type.
What Clubs should do	:	Clubs and districts cannot receive new grants if they are non-compliant with reporting for a previously awarded grant. If 15 months pass and an acceptable report has not been received, sponsoring clubs and districts receive a series of warning letters to alert them of the overdue report and to inform them of the consequences of non-reporting .Hence the clubs using such funds should use them judiciously and comply with the reporting rules. All reports must be should have all the required supportive.
